

Dear Parents, Caregivers, and Whanau,

As the Streets for People project begins its trial in March we as a school have identified some drop-off points to assist you and your family. We understand that biking, scootering, or walking to school may not be feasible for some families. Therefore we have identified the following 'drop off points' for your child/ren. Pick-up points will be identified and communicated to you next week. However, these will not involve Walking School Buses or Cycle/Scooter Trains. Therefore we do not need official parent help.

The morning 'drop off points' requires your help, to ensure that all goes smoothly. If you are able to assist with a 'Walking School Bus or Cycle/Scooter Train" please can you fill in this [form](#).

We would also like to open up to our Year 6 students and offer them the option of assisting with getting children safely to school. If you have a Year 6 student that would like to assist, please fill in this [form](#).

CPS Safer Streets for People				
Streets for People Drop Off Points				
	Identified before school drop off points	Walking School Bus	Cycle/Scooter Train	Departure Time
